

Grow with us

We are a fast growing tech start up, well funded after raising \$3m from Google, Atlassian and other philanthropists. Founded in 2016, currently 15 people

We are a global business, and have offices in Sydney, Auckland, and soon to be Denver.

We are already in two countries... in another 3 years we will hopefully be in 6+... those in our team who deliver and have ambition could be leaders of a region or country.

Work with an
Amazing team!
